The Reaumont Foundation is fiercely committed to impacting the lives of those faced with pancreatic cancer by funding research, providing financial assistance to families, and low-cost housing for use during treatment at the nation's #1 ranked cancer hospital, MD Anderson Cancer Center.

All proceeds from this year's Dig for Detection Sand Volleyball Tournament will support The Reaumont Foundation's efforts in helping those facing pancreatic cancer, including our Homes of Hope initiative in Houston, TX.

In 2021, The Reaumont Foundation set an ambitious goal of raising \$100,000 to provide subsidized housing to patients seeking extended care for pancreatic cancer at MD Anderson in Houston, Texas – the nation's top hospital for cancer care. With the help of our generous donors, we were able to purchase and furnish our first home, which is within walking distance from MD Anderson, in December of 2021.

We have seen firsthand how great the need has been and have welcomed 5 patients with their families from across the country since opening in March of 2022. Homes of Hope aims to ease the financial burden of housing, provide better access to the nation's top cancer hospitals, and provide a "home away from home" to families during their most difficult days.
